PROFILE SUMMARY

Frontend Developer specializing in **Next.js** and React, with additional experience in Angular and TypeScript. Experienced in building scalable, user-focused web applications with clean, maintainable code and modern frontend practices. Thrives in fast-paced startup and fintech environments, collaborating across teams to deliver intuitive digital products while contributing to code quality, product improvements, and team growth.

PROFESSIONAL EXPERIENCE

Lead Frontend Developer <i>Haayaa_Africa / Koin-Strap</i>	03/2025 – Present onsite, Nigeria
- Developed responsive marketing pages for the brand, including Contact Sales, Support, About, Business Owners, Creators, and Customers pages with smooth scroll animations and clean, consistent UI design. - Built key sections of the web application: Authentication flows, user dashboard, shopping cart, checkout experience, and product detail pages. - Implemented a dynamic business listing page to allow customers to discover various businesses and their offered services. - Focused on performance optimization, accessibility, and pixel-perfect implementation across all devices.	
Frontend Developer <i>Eventmint</i>	07/2024 – 11/2024 remote, Nigeria
- Built the frontend for EventMint, a web3 app for creating and selling event tickets. - Developed ticket creation features with event details such as name, category, and pricing. - Integrated wallet-based blockchain payments for secure transactions. - Enabled ticket visibility and user engagement via the Blinks platform.	
Frontend Developer <i>Descout</i>	03/2024 – 06/2024 Remote, Nigeria
- Led frontend development for Descout, a driver tracking app for ride-hailing platforms like Uber and Bolt. - Built core interfaces (landing page, dashboard, API, auth) using React, Vite, and TypeScript. - Ensured responsive design across all devices for a seamless user experience. - Used Tailwind CSS and module.css for clean, modular styling.	
Frontend developer <i>Tenece IT Services</i>	11/2022 – 06/2023 Enugu, Nigeria
- Collaborated on a blockchain-based health record system during a tech boot camp at Tenece. - Built UI components to display patient diagnoses from blockchain uploads. - Developed core auth features (login, signup) and app structure for smooth UX. - Improved landing page design to boost visual appeal and user engagement.	

EDUCATION HISTORY

B.TECH in Geophysics <i>Federal University of Technology, Owerri, Nigeria</i> CGPA 4.12	2016
--	------

TECH STACK

Languages & Libraries

JavaScript, TypeScript, React, Next.js, Vite, Angular, Beam.js, Node.js, Express, MongoDB, Prisma ORM, PostgreSQL
